ZTENCO LIMITED SERVICES

- **Owner's Engineering** or Project Management Consultancy
- **Technical and Financial Feasibility Study**, Technical Due Diligence, etc.
- **Energy Audit**, Water Audit, Carbon Audit, EE&C Plan, Energy Management, etc.
- **Environmental Study** (IEE, ESIA, ESMP, DIA, RAP, LAP, etc.)
- **Grid Impact Study**, System Analysis, Automation Engineering, etc.
- **Green Energy and Sustainability**, Renewable Energy Solutions, etc.
- **Electrical, Fire & Structural Safety Assessment**, Third Party Inspection, etc.
- **MEP Design and Supervision**, Supply and Installation, EPC Services, etc.

OWNER'S ENGINEERING SERVICES

ZTENCO boasts a diverse team of experts proficient in various disciplines, including design, engineering, and construction processes—integral components for proficient project management consultancy. Our aim is to assist you in mitigating project-related risks, offering timely updates on scope modifications, and addressing deviations resulting from changes in specifications. We meticulously oversee the construction activities of EPC, ensuring adherence to contractual obligations.

TECHNICAL AND FINANCIAL FEASIBILITY STUDY

As a technical service provider, ZTENCO guarantees the delivery of dependable and comprehensive technical and financial feasibility study reports, serving as a solid foundation for your decision-making process. We offer integrated feasibility study and due diligence services that encompass technical, environmental, sustainability, and commercial considerations. Our holistic approach is designed to significantly enhance the operation and value of your projects.

GRID IMPACT STUDY

ZTENCO conducts a thorough examination of grid connection scenarios and power systems includes load flow analysis, short-circuit current study, dynamic study, etc. assisting you in optimizing the electrical interconnection facilities of your power plant to comply the statutory requirements. Our expertise adds value to your project by ensuring compliance with the regulations and requirements of the interconnecting utility. Our study complies with the national electricity grid codes, electrical distribution codes, and the electricity act.

GREEN ENERGY AND SUSTAINABILITY

ZTENCO specializes in providing comprehensive services in the field of green energy and sustainability, particularly focusing on solar and wind projects. Our expertise spans the entire project lifecycle, from meticulous feasibility studies and technical due diligence complying with regulatory requirements. With a multidisciplinary team of experts, ZTENCO is committed to delivering innovative solutions that contribute to the advancement of sustainable energy initiatives, ensuring clients achieve both environmental goals and long-term project success.

ENVIRONMENTAL STUDY

ZTENCO is dedicated to delivering high-quality Environmental Study services tailored to meet the unique needs of our clients (IEE, EIA, SIA, ESMP, DIA, RAP, LAP, etc.). Specializing in meticulous environmental assessments, impact analyses, and sustainability evaluations, we provide valuable insights crucial for informed decision-making. Our experienced team utilizes cutting-edge methodologies to address environmental challenges and regulatory compliance, ensuring a comprehensive understanding of the ecological context surrounding projects. ZTENCO's commitment to environmental stewardship aims to support sustainable development practices and enhance overall project resilience.

ENERGY AUDIT

ZTENCO excels in delivering top-notch Energy Audit services, offering comprehensive assessments to optimize energy efficiency and sustainability for our clients. We also provide Water Audit, Carbon Audit, EE&C Plan, Energy Management, etc. which are relevant to Energy Audit. Leveraging a blend of advanced technologies and industry expertise, our energy audits provide detailed insights into consumption patterns, potential savings, and environmentally responsible solutions. Our dedicated team, which includes SREDA & AEE Certified Energy Auditors, works closely with clients to identify areas for improvement, implement energy-saving measures, and enhance overall operational performance. ZTENCO's commitment to precision and innovation in Energy Audits ensures that our clients achieve cost-effective energy solutions while contributing to a greener and more sustainable future. Moreover, ZTENCO is enlisted under SREDA as Energy Auditing Firm.

SAFETY ASSESSMENT

ZTENCO specializes in delivering comprehensive Electrical, Fire, and Structural Safety Assessment services, catering to the diverse safety needs of our clients. Our expert team employs rigorous evaluation methodologies to ensure the integrity and compliance of electrical systems, fire protection measures, and structural components. With a focus on risk mitigation and adherence to safety standards, ZTENCO's assessments provide clients with valuable insights to enhance the overall safety and resilience of their facilities. From identifying potential hazards to recommending robust safety measures, our commitment is to safeguard both people and property, fostering a secure environment for sustainable operations.

MEP DESIGN AND SUPERVISION

ZTENCO stands as a premier provider of Mechanical, Electrical, and Plumbing (MEP) design and supervision services, offering end-to-end solutions for diverse projects. With a focus on innovation and efficiency, our expert team collaborates to deliver cutting-edge designs and meticulous supervision to ensure the seamless integration of MEP systems. From conceptualization to implementation, ZTENCO's commitment lies in optimizing functionality, sustainability, and safety, ensuring that clients' projects benefit from state-of-the-art MEP solutions. Our proficiency in balancing technical excellence and practical considerations sets us apart, making ZTENCO a trusted partner in realizing projects with superior MEP infrastructure.
